Sampling Appointment Details

A sampling appointment to test for lead in your Child Care Center's drinking water has been scheduled with our assistance team partner, the California Rural Water Association (CRWA). Here are your appointment details:

Scheduled to begin at: 01/28/2023 09:30AM

Your phone number for facility access: (714) 952-1740

Your emergency phone number in case of cancellation: (714) 952-1740

Special Instructions:

Children may not be present during the sampling visit. If you need to reschedule or cancel your sampling visit call the CRWA Sample Collection Coordinator at (855) 916-4798 or email at ab2370leadsampling@calruralwater.org. If you need to change the primary contact for facility access either send us an email at ab2370assistance@owp.csus.edu or call our help desk at (916) 278-6142. None

Please remember that children cannot be present.

Step 2—What to complete 8 to 18 hours prior* to sampling

You will likely be in a time crunch to complete these tasks because you will have to wait until your Child Care Center is closed before you can start, and this must be completed at least 8 hours before your sampler arrives. So, plan ahead to complete the following steps 8 to 18 hours ahead of your sampling appointment.

1. Start well before* 8 hours prior to sampling so that you are finished before the 8-hour cutoff.
2. For each cold-water outlet that requires sampling:
 - a. Turn on the outlet for 30 seconds
 - b. Cover with a bag and secure the bag with tape
 - c. Write the time and location on the tape
 - d. Place a "Do Not Use" sign on the bag covering the outlet
3. For all other outlets
 - a. Place a "Do Not Use" sign on the outlet. Don't forget toilets and outdoor outlets.
4. Do not allow public access to the building. Cancel janitorial and gardening services, if scheduled.

Contact:

Child care centers with general questions about AB 2370 should email: ccwateresting@dss.ca.gov

The contents of this document do not necessarily reflect the views and policies of the foregoing, nor does mention of trade names or commercial products constitute endorsement or recommendation for use.

*Allocate enough time to prepare

Be sure that you can close your facility and prepare the site so that you are finished at least 8 hours before your appointment. As an estimate, multiply the number of fixtures by 5 minutes. For example, if there are 12 outlets onsite, plan on 60 minutes to prepare the site, or 1 hour. If your sampling appointment is scheduled for 4 am, 8 hours prior is 8 pm. That means you should start no later than 7 pm the night before. If outlets are not in use, you can start preparing the site as early as 18 hours prior. This means you could start no earlier than 10 am the day before sampling. To estimate how long it will take to do the sampling, multiply the number of fixtures by 10 minutes each and then add 30 minutes to review and sign paperwork. Please keep this in mind while scheduling both your sampling appointment and your hours of operation on these days.
